REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment and the Terminal Disclaimer filed on 12/21/04 overcame the technical deficiencies and the prior art rejection. Claims 1-33 are allowed because the prior art of record does not show the limitation "shifting the phase of said output signal to reestablish said phase relationship in response to said counting signals reaching a count threshold which is greater than one" as combined in claim 1, "a filter for providing an output signal in response to all bits of said register having a same logical binary value" as recited in claim 6; and "a low pass filter having an input coupled to said phase detector output, said filter having an output and operative to output a first signal in response to receiving from said phase detector a first predetermined number of a first detector output signal and operative to output a second signal in response to receiving from said phase detector a second predetermined number of a second detector output signal, said first and second predetermined numbers each greater than one" as combined in claim 26. In particular, the filter (12) of Cederbaum (US 5,748,125) outputs signal Sfilt as shown in Cederbaum's Truth Table (column 7) and FIG. 7 that each bit change in signal Sfilt changes the frequency of output clock signal Svco. Thus, each time Cederbaum's phase detector 11 outputs a signal S, digital filter 12 is incremented or decremented, resulting in an output clock frequency change.

CONCLUSION

Art Unit: 2816

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DINH T. LE whose telephone number is (571) 272-1745. The examiner can normally be reached on Monday-Friday (8AM-7PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TIMOTHY CALLAHAN can be reached at (571) 272-1740.
